

IWC Dream Article: Dream Symbol of Boats

Introduction

In the waking state, boats offer a great amount of help to people in different ways. They can be of great help during the time of unexpected floods and moving necessary equipment in various amounts. Boats also are a great tool for boat owners, various workers, those in need of transportation, and travelers regarding lakes, rivers, beaches, and oceans, including on vacations or days off.

Boat Symbolism in Dreams

Spiritual Pathway: One form of symbolism of boats represents a spiritual pathway. In this case, one may want to take notice of the surroundings as much as the pathway he or she is traveling.

Boats travel in uncharted territory. The rivers, lakes, and oceans are always changing. The water doesn't stay the same. So, the journey will usually bring with it a new outlook for the mind in general and the overall emotional self or a new piece for one's life journey and spiritual pathway.

Emotional Life: The boat usually includes addressing one's emotions and emotional life in some way. If you are **traveling**, this can mean the need to balance one's recreational life with your work life.

Exploration: Exploring an area by boat means you are or need to allow yourself to think outside the box. Look at or explore situations differently so that you can gain better clarity of one or more situations.

Other Symbolism of Boats

Drowning: This usually means you are letting your emotional self drown. Remember to stay on top of your emotions. Take the time to do emotional and spiritual healing to revitalize your emotional self and regain a sense of emotional control.

Speeding: Rushing through certain segments of your spiritual pathway or emotional wellbeing. Either way, take the time to work through both your emotions and your life's current lessons. In this way, you won't "rock the boat" under a state of pressure, unnecessary worry, stress, or fear.

Rowing: Means stabilizing your spiritual pathway and/or emotional self. Moving along the pathway and/or working through your emotions with calm control.
